Washington, DC 20554

RE: WT Docket No. 03-103
Ex Parte Comments

Dear Ms. Dortch:

Frontier Airlines is aware that the Federal Communications Commission ("FCC") is planning to restructure its rules in the 800 MHz Air-Ground Radiotelephone Band.

Frontier enthusiastically endorses this project, and urges the FCC to proceed as rapidly as possible. There are a number of interesting technological applications which we believe will benefit consumers that are awaiting development pending the FCC's decisions.

Frontier also hopes that the Commission will carefully examine the question of whether it is technically feasible for multiple broadband providers to occupy the band. Assuming the FCC reaches the conclusion that this can be done, there is no doubt that airlines and consumers would best be served by allowing competition between multiple vendors. Competition will control consumer prices, foster the development of new capabilities, and encourage rapid implementation of new service offerings by (airline) and others.

Sincerely,

Jeff S. Potter
President and CEO
